SUMMARY

Detail-oriented Frontend Developer with over 2 years of professional experience building responsive, high-performance web applications focused on the **React.js** and **Next.js** ecosystem. Proven track record of architecting client-facing platforms, integrating complex **RESTful APIs**, and implementing smart **AI/LLM pipelines**. Skilled in state management (Redux), modern UI frameworks (shadcn/ui, Tailwind CSS), and driving agile workflows via **Jira** to deliver scalable products.

PROFESSIONAL EXPERIENCE

- Junior Frontend Developer (React.js)**02/2024 – 04/2026 | Karachi, Pakistan
Qubitse Enterprises Pvt. Ltd.
- HAR.com (Core Project):** Architected responsive, scalable UI features using **React.js** and **Tailwind CSS**, integrating complex **RESTful APIs** to optimize dynamic property data rendering and enhance feature delivery speed by **20%**.
 - HAR.com State & Data Management:** Streamlined complex global states using **Redux Toolkit** and managed asynchronous API middleware, reducing render-blocking friction and improving data fetching efficiency across high-traffic workflows by **30%**.
 - HAR.com Auth & Form Handling:** Implemented secure user authentication workflows and automated client-side data validations using **React Hook Form**, mitigating input vulnerabilities and data submission lag.
 - Web Maintenance & CMS:** Managed end-to-end frontend updates, dynamic form handling, and web performance optimization for various multi-client platforms built on **WordPress** CMS templates.
 - Agile Workflows:** Collaborated within cross-functional engineering teams utilizing **Jira** for task tracking, bug resolution, and rapid sprint deployments.

EDUCATION

- Bachelor of Science (B.Sc.) in Computer Science**03/2021 – 09/2025 | Karachi, Pakistan
Virtual University of Pakistan
- Final Year Project: Fruit Ripeness Detection:** Engineered a CNN (ResNet50) deep learning system with **98% accuracy** using Python, TensorFlow, and OpenCV for real-time quality grading of fruits.
 - [Github] 🔗
- Advanced Diploma in Software Engineering (ADSE)**06/2019 – 06/2022 | Karachi, Pakistan
Aptech Computer Education

SKILLS

- Core Stack**
 - React.js, Next.js, JavaScript (ES6+), TypeScript
- UI & Analytics**
 - shadcn/ui, Tailwind CSS, Bootstrap, Recharts
- Tools & APIs**
 - RESTful APIs, Jira, Git, Web Performance Optimization
- State & Forms**
 - Redux (Toolkit), React Hook Form, Context API
- Auth & Databases**
 - Clerk (Authentication), Prisma ORM, PostgreSQL, MongoDB, SQL
- AI Integration**
 - LLMs, LangChain, Gemini API, Vector Search, Python

PROJECTS

- AI Multi-Vendor E-Commerce SaaS**
Next.js, Tailwind, Clerk, Neon DB, Inngest, ImageKit, Paddle, Gemini API
 - Architected role-based admin workflows and event-driven backends, integrating Gemini API with secure guardrails and request tracking.
 - [Github] 🔗 | [Live Demo] 🔗
- AI Note Taker SaaS**
Next.js, React, LangChain, Gemini API, Convex, Clerk, Paddle
 - Developed an AI solution for PDF summarization and vector search using advanced LLM pipelines, featuring secure authentication and a real-time backend.
